Expert full-stack developer and ui/UX Engineer.

Engineer valued for driving high-performance accessible web experiences. I design quality, user-friendly and scalable products regardless of stack.

experience

I've worked on a handful of web projects over the past 3 years, some of which were for the following organizations:

da-manager - Frontend Engineer

August 2020 - Present

Shaping the future of product design, functionality and entrepreneurship- building and advocating for inclusive and thoughtful experiences for over a million merchants across the globe.

c-Top - backend Engineer

January 2018 - march 2020

At this web-application company, My responsibilities were

- creating ui/ux designs with front-end frameworks like react and vue
- work on the frontend of custom sites.
- develop web application with mySQL database
- editing of php scripts

developing wordpress plugins

Google Developers, Nigeria

2018 - present

As an ambassador to Google in my school [FUPRE, Nigeria](#). am part of a team of programmers who teach and Instruct students In learning basic programming concepts. My responsibilities Include

- organizing code challenges for students
- teaching basic programming concepts.
- organizing seminars and webinars respectively
- recruiting new ambassadors
